1. Operating Environment

1-1. Operating System

The Smart Operation Panel (SOP) Designer supports the following operating systems:

- Windows 7 (32bit, 64bit)
- Windows 8.1 (32bit, 64bit)
- Windows 10 (32bit, 64bit)

1-2. Required Library

Microsoft Visual C++ 2008 Redistributable -9.0.30729.6161 is required. If the SOP Designer fails to start due to a "Side-by-side configuration is incorrect" error, install the Microsoft Visual C++ 2008 Redistributable Package (x86) from the following URL:

<https://www.microsoft.com/en-US/download/details.aspx?id=26368>

Be sure to install vccredist_x86.exe even if your PC runs a 64-bit OS. The SOP Designer is a 32-bit application and uses the 32-bit version of the Visual C++ module.

1-3. Supported Languages

English, German, French, Italian, Spanish, Dutch, and Simplified Chinese

1-4. Supported Models

The following SOP 2.5 generation (SOP-G2.5) models are supported in this version:

[Color MFP (10" panel)]

- IM C4500 / IM C5500 / IM C6000
- IM C2000 / IM C2500 / IM C3000 / IM C3500

[Black and White MFP (7" panel)]

- IM 2702 (New in Version 1.43)

The following SOP 2nd generation (SOP-G2) models are supported in this version:

[Color MFP (10" panel)]

- MP C306ZSP / MP C406ZSP
- MP C4504 Series / MP C5504 Series / MP C6004 Series
- MP C3004 Series / MP C3504 Series
- MP C2004 / MP C2504
- MP C6503 / MP C8003 / Pro C5200S / Pro C5210S
- MP C4504ex / MP C5504ex / MP C6004ex
- MP C2004ex / MP C2504ex / MP C3004ex / MP C3504ex
- MP C307 / MP C407
- MP C501

[Color MFP (7" panel)]

- SP C360SFNw / SP C360SNw / SP C361SFNw

[Black and White MFP (10" panel)]

- MP 305+
- MP 6503SP / MP 7503SP / MP 9003SP
- MP 402SPF
- MP 501SPF / MP 601SPF
- MP 2555 / MP 3055 / MP 3555 / MP 4055 / MP 5055 / MP 6055
- IM 350 / IM 430 (New in Version 1.43)

Note: Use SOP Designer Version 1.32 for SOP 1st generation (SOP-G1) models below:

- MP C4503Z Series / MP C5503Z Series / MP C6003Z Series
- MP C3003Z Series / MP C3503Z Series
- MP C2003Z SP / MP C2503Z SP
- MP C401 SRSP
- MP 2553Z SP / MP 3053Z SP / MP 3353Z SP
- MP 2554ZSP / MP 3054ZSP / MP 3554ZSP / MP 4054AZSP / MP 5054AZSP / MP 6054ZSP

Make sure that the firmware is up to date. The minimum firmware required for certain models is listed below.

Note:

- Firmware version update is not necessary for models not listed below.
- Updating System/Copy firmware might be required to enable the Showing/Sending Scanner Counter feature (*1) on the SendMeter application.

*1: The Showing/Sending Scanner Counter feature is not supported on MP 305+.

Model	SOP	GW Controller
SP C361SFNw	-	CTL System: V1.08
MP C2004ex / MP C2504ex / MP C3004ex / MP C3504ex / MP C4504ex / MP C5504ex / MP C6004ex	-	System/Copy: V1.11
MP C2004 / MP C2504 / MP C3004 / MP C3504 / MP C4504 / MP C5504 / MP C6004	Firmware: V1.22.2	System/Copy: V1.24
MP C6503 / MP C8003 / Pro C5200S / Pro C5210S	Firmware: V1.22.2	System/Copy: V1.14
MP C307 / MP C407	Firmware: V1.22.2	System/Copy: V1.10
MP C306ZSP / MP C406ZSP	Firmware: V1.22.2 Application Site: V1.02.02	System/Copy: V1.18.1
MP 305+	Firmware: V1.22.2 Application Site: V1.02.02	-
MP 6503SP / MP 7503SP / MP 9003SP	Firmware: V1.22.2	System/Copy: V1.11
MP 402SPF	Firmware: V1.22.2	System/Copy: V1.09
MP 501SPF / MP 601SPF	Firmware: V1.22.2	System/Copy: V1.15
MP 2555 / MP 3055 / MP 3555 / MP 4055 / MP 5055 / MP 6055	Firmware: V1.22.2	System/Copy: V1.12

2. Features

2-1. SOP Designer Features

The SOP Designer is a Windows application, and supports the following features:

- Obtain machine settings data via network
- Customization of SOP Home screens
 1. Change wallpaper
 2. Change layout *1
 3. Add/Remove application icons
 4. Add/Remove/Edit browser shortcuts
 5. Change Function Priority setting
- Write customized settings data to machine via network
- Save/Open settings data
- Install/Update/Uninstall the SendMeter application, Contact Information application, and Bulletin Widget
- Configure the SendMeter application, Contact Information application, and Bulletin Widget
- Configure the machine's email settings (SMTP and Auto Email Notification).

*1: The location of application icons, widgets, and shortcut icons can be changed.

2-2. SendMeter Application Features

The SendMeter application is an SOP application and supports the following features:

- Show counter information
- Send counter information by email
- Send toner warning emails aimed at preventing the early toner cartridge replacement (**Available on color MFPs only**)

The SendMeter application supports the following SMTP server for business:

- Gmail SMTP server (SMTP over TLS (port 587) or SSL (port 465))
- Office 365 SMTP server (SMTP over TLS (port 587 or 25))

Note: SSL3.0/TLS1.0/TLS1.1/TLS1.2 are supported.

2-3. Contact Information Application Features

The Contact Information application is an SOP application and supports the following features:

- Show the contact information.
- Include a URL link for more information.

2-4. Bulletin Widget Features

The Bulletin Widget application is an SOP application and supports the following features:

- Show messages in widget. (Maximum 10 messages)
- Show messages for events (Start/end time or machine condition)
- Include a URL link for more information.

Note:

The above three SOP applications ("the SOP APPS") are contained in the executable file of the SOP Designer (SOP_Designer.exe) and can be installed by using the SOP Designer.

3. SOP Designer

3-1. Important Notes

- **Settings must be written on devices of the same model and with the same configuration.**
- **When obtaining settings data from a machine, it is recommended to make a backup of the data obtained.**
This enables the SOP to be reset to the pre-customized state without connecting to the machine.
For the procedure to make backup data, see section **3-6. Save/Open Settings Data**.
- After uploading the wallpaper and layout settings data to the machine, the SOP restarts, and then the machine (GW Controller) restarts.
- After successful installation of the SOP APPS, the SOP will reboot to start the SOP APPS.
- Removing an icon on the SOP Designer does not uninstall the application.
- Do not edit the settings data (JSON file) for Config File Server, which is created by the SOP Designer.
For the procedure to create the settings data, see section **7. Prepare Config File Server for the SOP APPS**.

3-2. Limitations

- The SOP Designer does not support panel customization if there are folders on the panel.
Icons in the folder will disappear after uploading wallpaper data and layout.
- The SOP Designer does not support SOP customization if a customized Home application is installed.
- The names of widgets developed by RiDP partners are displayed as "NoName".
- When the upload starts, a progress dialog appears on the machine. However, the progress percentage does not change (remains at "0%").
When uploading is complete, "Finish" appears on the dialog.
- When uploading settings data to a machine, the SOP Designer uploads setting data related to the Home screens as well as the customized data. Therefore, if any settings were changed before the customized data was uploaded, it might go back to the previous settings.
- A shortcut name or custom icon name may be displayed differently on the actual SOP and the SOP Designer.
Check the actual names displayed on the SOP.
For example, if a shortcut name contains a space, justification may differ between the actual SOP and the SOP Designer. Also, if a shortcut name is very long, the name appears as "..." on the SOP Designer. However, on the SOP, the appearance of the name depends on the specification of the control panel.
- On the SOP Designer, if an application icon is removed from the Home screen once, this application

icon may no longer be added to the Home screen. In such a case, obtain settings data from the machine again and add the icon.

- The following applications cannot be added (cannot be displayed on the App List) due to the machine's specification:

- Web Browser
- User Guide
- Gallery
- Large icons (Copy, Scanner, Fax) of SOP-G2.5

Note: Large icons can be displayed on the App List if the SOP Designer Utility is installed.

- The following applications cannot be removed due to the machine's specification:

- User Tools
- Address Book Management of SOP-G2

- When opening the "Add App Icon" dialog or the "Set Function Priority" dialog, a question mark icon might be seen. This is because the SOP Designer could not obtain the icons for some applications (e.g. "Printer"). Although the SOP Designer displays the question mark icon, the SOP displays the correct application icon after the wallpaper and layout data is uploaded to the panel.

Install the SOP Designer Utility to resolve this issue. It will inform the SOP Designer of the missing data.

- When uninstalling the SOP APPS, even if the application is not installed, uninstallation can be conducted and a successful uninstallation message will be displayed on the SOP Designer.

- Installing/uninstalling SOP applications will probably fail if the machine is in "Offline mode".

Examples of "Offline mode":

- The "System Settings" menu is displayed on the machine.
- The machine is preparing to reboot.
- The machine settings configured by another PC are being applied remotely.
- The machine's Address Book is being downloaded by another PC remotely.

- For 7" panel models, installing/uninstalling SOP applications will probably fail if the machine is in Sleep mode.

- When the wallpaper and layout data has been downloaded, icon names on the SOP Designer might be displayed in a different language than the SOP. This is due to an inconsistency in the panel.

This does not have a negative impact, but it can be resolved by going to the following menu:

User Tools > Screen Features > Screen Device Settings > Initialize Screen Features Settings

3-3. Typical Operation Flow

Configuration diagram

The SOP can be customized through the following operations:

1. The SOP configuration data can be obtained from the machine by downloading it over the network. The initial configuration data can be saved as a snapshot. Instead of getting the initial configuration data from the machine, customization can be started from the previously saved snapshot data.
2. The icons and widgets can be moved and deleted by drag-and-drop, or by right-clicking on the icons and selecting the operation in the menu. To drag-and-drop the icons, you need to hold the left mouse button down until the other icons are dimmed. The customized configuration data can be saved as a snapshot.
3. The customized configuration data can be applied by uploading the configuration data to the SOP over the network.

3-4. Starting SOP Designer

1. Copy "RICOH Smart Operation Panel Designer V1.xx.zip" to your PC.
2. Unzip the file to any directory.

If an older version of "SOP_Designer.exe" exists, it is recommended to replace it with the new version.

3. Run "SOP_Designer.exe".

Note:

When you run the SOP Designer for the first time, the Software License Agreement and the dialog to select your organization will be displayed (3 options: "Channel Partner/Dealer", "Ricoh Family Group (Customer Relations)", or "Ricoh Family Group (Others)").

Regarding section 4 of the Software License Agreement below, data sent to Ricoh's server will be used to improve the SOP Designer.

Section 4. Gather and Transmit Data

- 4.1 You shall acknowledge that each time you use the Software, the Software will gather and transmit the following data to Company's remote server from your computer on which the

Software is installed: (i) PCID, which is the unique ID number created by the Software for identifying your computer, but not identifying any specific individual, (ii) Timezone set on your computer, (iii) the date and time you will use the Software, (iv) the function of the Software you will use, and (v) the organization where you belong.

Main screen (After downloading wallpaper and layout data)

Features with corresponding numbers from the image above:

No.	Category	Item	Description
1	Open Config File	from MFP	Downloads machine settings data.
2		from PC	Opens local saved configuration.
3	Save Config File	to MFP	Uploads machine settings data.
4		to PC	Saves settings data.
5	Customize	Wallpaper	Changes wallpaper.
6		Apply Classic Layout	Applies a classic application-centric layout.
7		Add App Icon	Adds application icons.
8		Add Custom Icon	Adds application icons with desired name and image
9		Add Shortcut	Adds browser shortcuts.
10	App Management	Function Priority	Configures Function Priority setting.
11		Install / Update	Installs the SOP APPS which are contained in SOP_Designer.exe.
12		Uninstall	Uninstalls the SOP APPS.
13		Install from PC *1	Installs a zip file of an SOP application.
14	MFP Management	Settings	Configures the SOP APPS.
15		Settings	Configures machine's email settings (SMTP and Auto Email Notification).
16	Status bar	-	Displays progress status and feedback messages.
17	Screen switching	-	Switches the Home screen. The screen can also be switched by dragging with mouse.

*1: These items can be displayed by selecting **Tools > Extend Features > All**.
(The default value is **Standard**.)

3-5. Basic Procedure for Downloading/Uploading Machine Settings Data

Before downloading or uploading machine settings data, confirm the settings below:

- Make sure the machine and the PC are connected to the LAN network.
- Make sure **Machine Management** is set to **On**.
To confirm this setting, go to **User Tools > Machine Features > System Settings > Administrator Tools > Administrator Authentication Management > Machine Management**.

Note: This setting is necessary for uploading Function Priority.

- Check the SP values have the following initial values:
SP5728-001: 49101
SP5728-002: 55101

Note: The term "machine administrator" in this document means the factory default administrator account.

Download Machine Settings Data

1. Start SOP Designer
2. Under **Open Config File**, click **from MFP**.
3. Select any of the following items:
 - Wallpaper, Layout and App List
 - Function Priority
 - SendMeter Config
 - Contact Information Config
 - Bulletin Config
 - SMTP
 - Auto Email Notification

Enter the machine's IP address, machine administrator's username, and password.

4. Click **Download**.

Upload Settings Data to Machine

1. Under **Save Config File**, click **to MFP**.
2. Select any of the following items:
 - Wallpaper, Layout
 - Function Priority
 - SendMeter Config
 - Contact Information Config
 - Bulletin Config
 - SMTP
 - Auto Email Notification

Enter the machine's IP address, machine administrator's username, and password.

Note: Config data can be uploaded to up to 100 machines.

The data is not uploaded to a machine when adding "#" to the machine's IP address.

3. Click **Upload**.

Note:

- Regarding "SendMeter Config", "Contact Information Config", "Bulletin Config" and "Function Priority", see sections 3-12, 3-13, 3-14, and 3-15 for details.
- An IP address list (ASCII text file) can be used when entering the machine's IP address. The IP address list with the execution result can be obtained when uploading is completed. See section **3-18. Use an IP address list** for details.

3-6. Save/Open Settings Data

Saving Data

1. Under **Save Config File**, click **to PC**.
2. Specify the location to save the data.

Note: The file name can be changed. The extension is "RDT_CFG".

Opening Data

1. Under **Open Config File**, click **from PC**.
2. Select saved configuration.

Note: The RDT_CFG file does not contain any password information (e.g. SMTP Auth. password). Confirm if the password is required for the desired setting when configuration data is uploaded to the SOP.

3-7. Customize - Wallpaper

Change/Save Wallpaper

1. Under **Customize**, click **Wallpaper**.
2. Click **Load image file**.
3. Click **Save image file**.

Note: The recommended image size is 1024 x 560 pixels for SOP-G2 and 1024 x 520 pixels for SOP-G2.5.

3-8. Customize - Layout

Move an Icon within the Same Screen

1. Select an icon (press and hold).
2. Drag the icon to change location.

Move an Icon to a Different Screen

1. Select an icon.
2. Right-click the icon.
3. Select **Move to ...** and select the destination screen for the icon.

3-9. Customize - Add/Remove Application Icons

Add Application Icon

1. Under **Customize**, click **Add App Icon**.
2. On the App List, select the application or widget item to add and drag the icon to the desired location, or double-click the item.

Remove Application Icon

1. Select an icon to remove.
2. Right-click the icon.
3. Select **Remove Item**.

3-10. Customize - Add/Remove/Edit Browser Shortcuts

Add Shortcut

1. Under **Customize**, click **Add Shortcut**.
2. Select the URL, Shortcut Name, and Target Browser ("Web Browser" or "Web Browser NX").
3. Click **Load image file** and select an image to change the shortcut icon.

Note:

- The maximum number of characters in a Shortcut name is 64.
- If a Shortcut name is specified for the following items, an error dialog will appear:
 - User Tools
 - Screen Features
 - Address Book Management
- When using a custom icon image, use a PNG image of 74 x 74 pixels or less.
- "Web Browser NX" is the browser used for solutions.
 - It is recommended to use "Web Browser" for general web pages.

Remove Shortcut

1. Select an icon to remove.
2. Right-click the icon.
3. Select **Remove Item**.
4. Confirm the dialog message and click **Yes**.

Edit Shortcut

1. Select an icon to edit.
2. Right-click the icon.
3. Select **Edit Item**.

3-11. Install/Update/Uninstall the SOP APPS

Install/Update

1. Under **App Management**, click **Install / Update**.
2. Select the application to install or update.
Enter the machine's IP address, machine administrator's username, and password.
3. Click **Install**.

Uninstall

1. Under **App Management**, click **Uninstall**.
2. Select the application to uninstall.
Enter the machine's IP address, machine administrator's username, and password.
3. Click **Uninstall**.

Note:

- **SendMeter App** and **SOP Designer Utility** can be installed by the above operations.
The SOP Designer Utility contains the Contact Information application and Bulletin Widget.
- An IP address list (ASCII text file) can be used when entering the machine's IP address.
The IP address list with the execution result can be obtained when installing/uninstalling is complete.
See section **3-18. Use an IP address list** for details.

3-12. Configure SendMeter

Download SendMeter Configuration Data

1. Under **Open Config File**, click **from MFP**.
2. Select **SendMeter Config**.
Enter the machine's IP address, machine administrator's username, and password.

3. Click **Download**.

Configure SendMeter

1. Under **App Management**, click **Settings**.
2. Select **SendMeter** and click **Next**.
3. Configure the SendMeter settings.
(Optional) "Config File Server URL" can be specified. See section 7. **Prepare Config File Server for the SOP APPS** for details.

4. Click **OK**.

Note:

- Regarding the Toner Warning setting (**available on color MFPs only**), there are four setting options:
 - **Send a notice when 20% of toner is remaining.** *1
 - **Send a notice when 10% of toner is remaining.** *2

- **Send a notice when 5% of toner is remaining.** *2
- **Send a reminder.**

*1: 20% of toner remaining is detected by MFP.

*2: 10% and 5% of toner remaining are calculated by the SendMeter application.

Upload SendMeter Configuration Data

1. Under **Save Config File**, click **to MFP**.
2. Select **SendMeter Config** .
Enter the machine's IP address, machine administrator's username, and password.
3. Click **Upload**.

3-13. Configure Contact Information

Download Contact Information Configuration Data

1. Under **Open Config File**, click **from MFP**.
2. Select the **Contact Information Config**.
Enter the machine's IP address, machine administrator's username, and password.
3. Click **Download**.

Configure Contact Information

1. Under **App Management**, click **Settings**.
2. Select **Contact Information** and click **Next**.
3. Up to 1920 characters can be entered in the message. However, the message on the SOP may be cut off due to the machine's font specification.
Supported image formats are PNG, JPEG, and BMP.

Note: Regarding image specification, the display area of the SOP is 1024 x 292 pixels.

Although a larger image than the area can be specified, the image will be reduced to keep its aspect ratio. The "Invalid image width and height to use" error dialog may appear if a very thin image (e.g. 1280 x 1 pixel) is specified because the image width or height was 0 after the size was reduced.

(Optional) "Config File Server URL" can be specified. See section **7. Prepare Config File Server for the SOP APPS** for details.

Contact Information Settings screen

4. Click **OK**.

Upload Contact Information Configuration Data

1. Under **Save Config File**, click to **MFP**.
2. Select the **Contact Information Config**.
Enter the machine's IP address, machine administrator's username, and password.
3. Click **Upload**.

3-14. Configure Bulletin Widget

Download Bulletin Configuration Data

1. Under **Open Config File**, click **from MFP**.
2. Select **Bulletin Config**.
Enter the machine's IP address, machine administrator's username, and password.
3. Click **Download**.

Configure Bulletin

1. Under **App Management**, click **Settings**.
2. Select **Bulletin** and click **Next**.
3. Click **Add** to create up to 10 new message settings.
4. Up to 720 characters can be entered in the message. However, the message

on the SOP may be cut off due to the machine's font specification.

Supported image formats are PNG, JPEG, and BMP.

Note:

- Regarding image specification, the display area of the SOP is 406 x 140 pixels. Although a larger image than the area can be specified, the image will be reduced to keep its aspect ratio. The "Invalid image width and height to use" error dialog may appear if a very thin image (e.g. 1280 x 1 pixel) is specified because the image width or height was 0 after the size was reduced.
- Regarding scheduling, if both **Begin Time** and **End Time** are set to **00:00**, the specified message will not be displayed on the SOP. The entire day is 00:00 - 23:59.
- Regarding Message, the maximum number of characters per line is 90 for SOP-G2 and 98 for SOP-G2.5 (in case of using the narrowest width character like "i").

5. Complete Bulletin settings.

(Optional) "Config File Server URL" can be specified. See section 7. **Prepare Config File Server for the SOP APPS** for details.

Bulletin Settings Screen with plain text message (Without URL link)

The screenshot shows a 'Bulletin Message' dialog box. At the top, there are two radio buttons: 'Text' (selected) and 'Image'. Below this is a large text area labeled 'Message' containing the text 'This is a sample message.' To the right of the text area is a 'Schedule' section with several radio buttons: 'Daily' (selected), 'Weekly', 'Monthly', 'Customized', 'On toner warning', 'On other warning', 'On toner error', 'On other error', and 'On no paper warning'. Below the schedule section are two time pickers: 'Begin Time' set to '00:00' and 'End Time' set to '23:59'. At the bottom left, there is an 'Image' section with a large gray rectangle, a 'Remove Image' button, and a 'Load Image file...' button. At the very bottom, there is a 'URL (optional)' text field and 'Cancel' and 'OK' buttons.

Bulletin Settings to hide the frame border

6. Click **OK**.

Upload Bulletin Configuration Data

1. Under **Save Config File**, click **to MFP**.
2. Select **Bulletin Config**.
Enter the machine's IP address, machine administrator's username, and password.
3. Click **Upload**.

3-15. Change Function Priority Setting

Download Function Priority Configuration Data

1. Under **Open Config File**, click **from MFP**.
2. Select **Function Priority**.
Enter the machine's IP address, machine administrator's username, and password.
3. Click **Download**.

Change Function Priority Setting

1. Under **Customize**, click **Function Priority**.
2. Select the application from the list and click **Set Priority**.
3. Click **OK**.

Upload Function Priority Configuration Data

1. Under **Save Config File**, click **to MFP**.

2. Select **Function Priority**.

Enter the machine's IP address, machine administrator's username, and password.

3. Click **Upload**.

3-16. Obtain the SOP APPS Log

The SOP APPS log in an inquiry may be helpful if there is a problem with the SOP APPS.

Obtaining the SOP APPS Log

1. In **Tools**, go to **Get App Log**, and select from the following items:
 - SendMeter
 - SOP Designer Utility
 - All
2. Enter the machine's IP address.
3. Enter file name.

Obtaining the Email History of the SendMeter Application

1. In **Tools**, click **Get Email History**.
2. Enter the machine's IP address.
3. Enter file name.

3-17. Change the UI Language

The language of the SOP Designer can be changed to a different language than the Windows display language.

Change UI Language

In **Tools**, go to **Change Language**, and select from the following items:

- System Language (Same as Windows display language)
- English
- Français
- Deutsch
- Italiano
- Español
- Nederlands
- Simplified Chinese

3-18. Use an IP Address List

When entering the machine's IP address, an IP address list (ASCII text file) can be used by clicking **Import**. The following is a sample:

```
192.168.10.201
192.168.10.202
192.168.10.203
192.168.10.204
192.168.10.205
#192.168.10.206
```

Note: When importing an IP address list, IP addresses which follow "#" are disregarded.

When the upload, installation or uninstallation is complete, the IP address list with the execution result can be obtained by clicking **Export the result**. The following is a sample:

```
#[Success]192.168.10.201
#[Success]192.168.10.202
192.168.10.203    #[Failure]
192.168.10.204    #[Cancelled]
192.168.10.205    #[Cancelled]
```

Note: The IP address list can be used directly when retrying the action after removing the cause of the failure.

3-19. Show/Hide Extended Features on the Menu

Extended features can be shown or hidden on the menu.

Show/Hide Extended Features

In **Tools**, go to **Extended Features**, and select from the following items:

- Standard
- All

Note: When selecting **All**, the following items can be seen in addition to Standard items:

- Apply Classic Layout
- Install from PC

See section **3-4. Starting SOP Designer** for details.

3-20. Customize - Add Custom Application Icons

An application icon can be added to the Home screen and renamed.

("Add App Icon", described in section 3-9, can be used to add an application icon with an original name.)

Add Custom Application Icon

1. Under **Customize**, click **Add Custom Icon**.
2. Go to **Select an app** and select the application to add.
3. Rename the icon.

4. Click **Load image file** and select an image to change the icon image.

Note:

- The maximum number of characters in a name is 64.
- When using a custom icon image, use a PNG image of 74 x 74 pixels.
- Custom application icons for the following will not disappear on unauthenticated user's Home screens when **User Authentication Management** is **On** due to the machine's specification:
 - Print/Scan (Memory Storage Device)
 - Quick Print Release

3-21. Customize - Apply Classic Layout

The layout can be changed to a classic application-centric Home screen with a few simple operations.

Apply Classic Layout

1. Under **Customize**, click **Apply Classic Layout**.
2. In **Apply Classic Layout**, click **OK**.

Note:

- The screen number or the "Hidden" option cannot be specified for the following items:
 - User Tools
 - User Guide
 - Address Book Management
- "(Classic)" can be removed from the icon names by selecting the checkbox. However, icon names are fixed in English.
(The checkbox appears when the UI language of the SOP Designer is English.)

"Apply Classic Layout" dialog

Screen number selection dialog (when clicking **Edit**)

3-22. Configure Machine's Email Settings

The machine's email settings (SMTP and Auto Email Notification) can be configured. The settings are equivalent to the settings in the Web Image Monitor.

Note:

- Auto Email Notification is a machine feature for sending status information by email.
The email body contains the machine's host name but does not contain the machine's serial number.
Enter a unique ID in the setting (e.g. Subject), if necessary.
- SMTP settings are not applied only to Auto Email Notification but also to the SendMeter application.

Download Machine's Email Settings Data

1. Under **Open Config File**, click **from MFP**.
2. Select **SMTP** and/or **Auto Email Notification**.
Enter the machine's IP address, machine administrator's username, and password.
3. Click **Download**.

Configure the Settings

1. Under **MFP Management**, click **Settings**.
2. Select **SMTP** or **Auto Email Notification** and click **Next**.
3. Configure the settings.

Upload Machine's Email Settings Data

1. Under **Save Config File**, click **to MFP**.
2. Select **SMTP** and/or **Auto Email Notification**.
Enter the machine's IP address, machine administrator's username, and password.
3. Click **Upload**.

Differences between the Web Image Monitor (WIM) and the SOP Designer (SOPD)

Category1	Category2	Item	Difference
Email	SMTP	SMTP Server Name	none
		SMTP Port No.	none
		Use Secure Connection (SSL)	none
		SMTP Authentication	none
		SMTP Auth. Email Address	none
		SMTP Auth. Username	WIM: UTF-8 code is allowed. SOPD: only ASCII code is allowed. *1
		SMTP Auth. Password	none
		SMTP Auth. Encryption	none
Auto Email Notification	-	Notification Message	WIM: UTF-8 code is allowed. SOPD: only ASCII code is allowed. *1
	Groups to Notify	Name (of Group)	WIM: UTF-8 code is allowed. SOPD: only ASCII code is allowed. *1
		Email Language	WIM: able to select SOPD: This item does not exist. *2
		Subject	WIM: UTF-8 code is allowed. SOPD: only ASCII code is allowed. *1

Category1	Category2	Item	Difference
		Message	WIM: UTF-8 code is allowed. SOPD: only ASCII code is allowed. *1
		Name (of Notify Address)	WIM: UTF-8 code is allowed. SOPD: only ASCII code is allowed. *1
		Address (of Notify Address)	no difference
	Select Groups/Items to Notify Detailed Settings of Each Item	- Call Service - Out of Toner - Toner Almost Empty *3 - Paper Misfeed - Cover Open - Out of Paper - Almost Out of Paper - Paper Tray Error - Output Tray Full - Unit Connection Error - Duplex Unit Error - Waste Toner Bottle is Full - Waste Toner Bottle is Almost Full - Add Staples - Replacement Required: Fuser Unit - Replacement Required Soon: Fuser Unit - Hole Punch Receptacle is Full - File Storage Memory Full - Device Access Violation - Toner Almost Empty (Remaining Level Selectable)	WIM: machine dependent SOPD: 3 items below are supported - Call Service - Out of Toner - Toner Almost Empty *3

Note:

*1: Use WIM to enter multibyte (UTF-8 code) characters.

When downloading multibyte characters from a machine to the SOP Designer, the same multibyte character can be uploaded to the same machine correctly, but the same multibyte character might not be able to be uploaded to a different machine.

*2: Use WIM or operate on the machine to change the email language, if necessary.

*3: "Toner Almost Empty" notice is sent when the remaining level reaches 10%.

3-23. Install a Zip File of an SOP Application

A zip file of an SOP application developed by Ricoh or RiDP partners can be installed.

Note: Only clean installation is supported for 7" panel models.

Install

1. Under **App Management**, click **Install from PC**.
2. Select the folder which contains the zip file of an SOP application. (Up to 10 zip files in a folder)
3. Select the application.
Enter the machine's IP address, machine administrator's username, and password.
4. Click **Install**.

4. SendMeter

4-1. Important Note

- When using the Toner Warning email feature, please make sure to install the SendMeter application on a machine that has more than 40% of toner remaining.
- The Scanner Counter does not include the local scanner counter of some SOP applications (e.g. Streamline NX).
- The information obtained in the SendMeter application is intended to improve the accuracy of the click charge, and it is not recommended to calculate the amount of charge only with that information.

4-2. Starting SendMeter

Setting SendMeter:

1. Open the application list screen on the machine.
2. Tap SendMeter icon.

Screen 1 (Initial screen): Printed Page Counter

Screen 2: Scanner Counter is On

Check Status | ⏪ | 🏠 | ☰ | 🔔 | Stop

Note:

- To send a counter information email, the following machine settings are required:
Configure SMTP Server, SMTP Authentication, and POP before SMTP according to your environment.
Go to **User Tools > Machine Features > System Settings > File Transfer**.
(Some of the settings can also be configured by the SOP Designer. See section **3-22. Configure Machine's Email Settings**.)
- The **Settings** button is available only when logged in as the machine administrator if changing the settings is not prohibited.
(The setting to prohibit changes is in **Setting Options of SendMeter** in the SOP Designer. See section **3-12. Configure SendMeter**.)
- The Showing/Sending Scanner Counter feature is available on MFPs with the appropriate system version only. See section **1-4. Supported Models** regarding system versions.

4-3. Configure

Check Status Stop

1. Tap the email address area (e.g. user@example.ricoh.com) and the input dialog appears.
2. Clear the address and press **OK**.

Settings screen 2 (Initial screen): Email address CC settings

This screenshot shows the 'Email 2' tab in the 'Settings' application. The interface includes a top bar with 'Machine Administrator' and 'Logged in: Machine Administrator', and a 'Logout' button. The 'Settings' title is followed by 'Cancel' and 'OK' buttons. The 'Email 2' tab is selected, showing five rows of 'CC' email address input fields. The bottom navigation bar contains 'Check Status', a back arrow, a home icon, a menu icon, a status icon, and a 'Stop' button.

Settings screen 3: Interval set to Monthly (Application's default value is Off)

This screenshot shows the 'Interval' tab in the 'Settings' application. The 'Monthly' radio button is selected. The 'Month Day' field is set to '1' and the 'Time' field is set to '08:00'. The bottom navigation bar is identical to the previous screen, featuring 'Check Status', a back arrow, a home icon, a menu icon, a status icon, and a 'Stop' button.

Settings screen 4 (Initial screen): Counter Settings

The screenshot shows the 'Counter' tab selected in the 'Settings' menu. The interface includes a top bar with 'Machine Administrator' and 'Logged in: Machine Administrator', and a bottom bar with 'Check Status', navigation icons, and 'Stop'. The 'Counter' tab is highlighted, and the 'Counter Mode' is set to 'Same as User Tools Counters'. The 'Scanner Counter' is set to 'Off'.

Counter Mode	Scanner Counter
Same as User Tools Counters	Off

Settings screen 5 (Initial screen): Toner Warning Settings

The screenshot shows the 'Toner Warning' tab selected in the 'Settings' menu. The interface includes a top bar with 'Machine Administrator' and 'Logged in: Machine Administrator', and a bottom bar with 'Check Status', navigation icons, and 'Stop'. The 'Toner Warning' tab is highlighted, and the settings for sending notices are as follows:

Send a notice when 20% of toner is remaining	Send a notice when 10% of toner is remaining	Send a notice when 5% of toner is remaining
Off	Off	Off

Note: The Toner Warning tab does not appear on the SOP of a Black and White MFP.

Settings screen 6 (Initial screen): Config File Server Settings

4-4. Toner Waning Email Samples

1. When the remaining toner level reaches 10%

Subject: Toner Warning <Cyan>: ID_20160928-0955 (Serial No. [3B51-615063])

Email body:

Toner Warning

Serial No. : G7100000039
Date: Feb.16,2018 9:10

This is to inform you that remaining toner<Cyan> reached 10% on Feb.16,2018.

Toner<Cyan> is estimated to run out 30 days after from Feb.16,2018.
(Estimated number of pages that can be printed is 1800.)

Page Counter
Color Total 16000

-----End-----

Note:

- This email is sent when **Send a notice when 10% of toner is remaining** is On.
- The estimated toner end dates of 10%, 5%, and toner end are calculated based on the machine usage history (simply the print volume and number of days) between the remaining toner level 30% and 20%.
- On the Toner Warning for the black toner cartridge, **Black Dev Total** will be stated under Page Counter. **Black Dev Total** goes up for each page that black toner is consumed.
(Dev is an abbreviation for development.)
- This email is sent at 9:10 AM on the machine's time. If the machine is in Sleep mode, the email is sent after recovering from Sleep mode.

2. Reminder

Subject: [Reminder]Toner Warning <Cyan>: ID_20160928-0955 (Serial No. [3B51-615063])

Email body:

Toner Warning

Serial No. : G7100000039

Date: Mar.8,2018 9:00

This is a reminder.

Remaining toner<Cyan> reached 10% on Feb.16,2018.

Today is 10 days before the estimated toner end date, Mar.18,2018.

Page Counter

Color Total 17000

-----End-----

Note:

- This email is sent when **Send a notice when n% of toner is remaining** and **Send a reminder** are **On**.
- This email is sent at 9:00 AM on the machine's time. If the machine is in Sleep mode, the email is sent after recovering from Sleep mode.

3. When the toner is empty

Subject: Toner Empty <Cyan>: ID_20160928-0955 (Serial No. [3B51-615063])

Email body:

Toner Warning

Serial No. : G7100000039

Date: Mar.23,2018 9:10

This is to inform you that remaining toner<Cyan> ran out on Mar.23,2018.

Page Counter

Color Total 18000

-----End-----

Note:

- This email might be sent when **Send a notice when n% of toner is remaining** is **On**.
- This email is sent at 9:10 AM on the machine's time. If the machine is in Sleep mode, the email is sent after recovering from Sleep mode.

5. Contact Information

Setting Contact Information

1. Open the application list screen on machine.
2. Tap Contact Information icon.

Sample screen 1: Image and text

Sample screen 2: Image, text, and URL link

6. Bulletin Widget

Setting a Bulletin Widget

1. Open the widget list screen on the machine
2. Select **Bulletin Widget** (press and hold)
3. Drag and drop the icon.

Note: When multiple messages are defined, the Bulletin Widget displays the messages one by one at intervals set by the SOP Designer.

Sample screen 1: Plain text message

Sample screen 2: Text with URL link

7. Prepare Config File Server for the SOP APPS

A HTTP server can be used to configure the SOP APPS remotely after the first configuration by the SOP Designer.

Usage Scenarios:

- Updating the message on Bulletin Widget monthly.
- Updating the email address on SendMeter when the contact person has changed.

Create Configuration Data

*This procedure is performed on the SOP Designer.

1. Under **App Management**, click **Settings**.
2. Select **SendMeter**, **Contact Information**, or **Bulletin**, and click **Next**.
3. Configure the settings and click **OK**.
Note: Make sure that "Config File Server URL" is set correctly for continuous updates from the server. (e.g. <http://www.example.com/RemoteConfig/SendMeter.json>)
4. Open **App Management** and go to **Settings**.
5. Select the same option you selected in #2 above and click **Save**.
A JSON file (e.g. SendMeter.json) will be created.
6. Click **Close** at the top right corner of the window.

Copy Configuration Data to Config File Server's Folder

*This procedure is performed on the HTTP Server.

1. Start HTTP service (e.g. IIS) on the PC that will function as a Config File Server.
2. Copy the JSON file to the Config File Server's folder. (e.g. <C:\inetpub\wwwroot\RemoteConfig>)
Note: Make sure the "Config File Server URL" is accessible from another PC's web browser.

Upload Configuration Data of Server URL

*This procedure is performed on the SOP Designer.

1. Under **App Management**, click **Settings**.
2. Select **SendMeter**, **Contact Information**, or **Bulletin**, and click **Next**.
3. Enter "Config File Server URL". (e.g. <http://www.example.com/RemoteConfig/SendMeter.json>)
Click **OK**.
4. In **Save Config File**, click to **MFP**.
5. Check the same option you selected in #2 above.
Enter the machine's IP address, machine administrator's username, and password.
6. Click **Upload**. "Config File Server URL" will be set on the SOP APPS.

8. Troubleshooting

SOP Designer

Q. An error occurred while downloading/uploading.

A. Check the following:

1. Are the machine and the PC connected to the network? Can you ping the machine?
2. The SOP Designer does not support connecting to the SOP via a proxy server.
3. Are the machine settings set correctly?
 - **Machine Management** in **Administrator Authentication Management** must be **On**.

To confirm this setting, go to **User Tools > Machine Features > System Settings > Administrator Tools > Administrator Authentication Management > Machine Management**.

Note: This setting is necessary for uploading Function Priority.

- **Server Function** must be **Active**. (Machine's factory default value is **Active**.)

To confirm this setting, go to **User Tools > Screen Features > Screen Device Settings > Server Settings > Server Function > Server Function**.

4. Ensure that users do not log in while uploading data to or downloading data from the machine.

5. Are the SOP Designer settings correct?

- Check the IP address
- Check the username and password of the machine administrator

6. Is the minimum supported firmware present on the target machine and the SOP?

See section **1-4. Supported Models** regarding system versions.

7. Did you download the data while a folder was present on the machine's Home screen?

Q. The SOP Designer does not start.

A. The library required to start the SOP Designer must be installed on your PC.

For details, see section **1. Operating Environment**.

Q. The SOP Designer screen is cut off and the entire screen cannot be seen.

A. The size of the SOP Designer is 1274 x 673 pixels and the maximum height of its settings dialog is 763 pixels. Ensure that the computer on which the SOP Designer is used has a screen resolution equal to or larger than 1280 x 768 pixels.

Q. An error occurred while installing an SOP application.

A. For SOP-G2 10" panel models, check if Java VM is running on the machine. The SOP Designer uses Java VM's API for installation on these models.

For 7" panel models, uninstall the application if already installed, turn the machine off and on, wait for a few minutes, and conduct a clean installation. It is recommended to make a backup of the data of the application before uninstallation.

The following models do not support SOP applications: SP C360SFNw / SP C360SNw

- Q. A question mark icon appears in the "Add App Icon" or "Set Function Priority" dialog.
- A. Install the SOP Designer Utility to resolve this issue. It will inform the SOP Designer of the missing data, and the correct application icon will be displayed after re-downloading Wallpaper or Function Priority.

Note: After successful installation of the SOP APPS, the SOP will reboot.
Wait for a few minutes after successful installation and re-download Wallpaper or Function Priority.

- Q. Widgets do not appear in the "Add App Icon" dialog.
- A. Install the SOP Designer Utility to resolve this issue. It will inform the SOP Designer of widget information.

Note: After successful installation of the SOP APPS, the SOP will reboot.
Wait for a few minutes after successful installation and re-download Wallpaper.

- Q. An Android robot icon appears on the SOP after uploading wallpaper and layout data.
- A. This will appear under the following conditions:
- An application (e.g. GlobalScan NX) is installed on machine A, but it is not installed on machine B.
 - Wallpaper and layout data is downloaded from machine A and uploaded to machine B.
- An Android robot icon then appears on machine B.
- Be sure that the same settings and same configuration including installed applications are written on same model devices.

SendMeter

- Q. The **Settings** button cannot be seen on the SendMeter application.
- A. The **Settings** button is available only when logged in as the machine administrator if changing the settings is not prohibited. (The setting to prohibit changes is in **Setting Options of SendMeter** in the SOP Designer. See section **3-12. Configure SendMeter**.)
- Q. Although the "Transmission succeeded" message appeared on the SOP, the meter information email is not delivered to the Gmail address.
- A. Specify an email address with the customer's domain name for "Sender Email Address". Gmail will block an email if the domain used in the sender email address is not valid.
- Q. The transmission fails with the "Transmission failed" message on the SOP when the Gmail SMTP server or Microsoft Office 365 SMTP server is specified in the machine settings.
- A. Gmail and Office 365 require SMTP over TLS or SSL. Check the following:
- **Use Secure Connection (SSL)** must be **On**
To confirm this setting, go to **User Tools > Machine Features > System Settings > File Transfer > SMTP Server**.
 - **SMTP Authentication** must be **On**.
To confirm this setting, go to **User Tools > Machine Features > System Settings > File Transfer > SMTP Authentication**.

Note: Enter other settings according to setup web page of Gmail or Office 365 mail service.

- Q. The "Scanner counter is not available" message appears on the SOP when the setting of **Scanner**

Counter is On.

A. Check the following:

1. Ensure that the firmware is up to date. See section **1-4. Supported Models** regarding system versions.
2. Was the machine administrator account changed after SendMeter configuration data had been uploaded?
 - Check the username and password of the machine administrator, and upload SendMeter configuration data again.

Q. The Scanner Counter does not appear on the SOP after recovering from Sleep mode.

A. Tap the Home icon. Wait for a few minutes and then tap the SendMeter icon again.

Bulletin Widget

Q. "No message" appears on the SOP after upgrading the SOP Designer Utility, although the message has already been configured.

A. Turn the machine off and on again.

9. Change history

Version 1.43 (This version)

- Improvement to the SOP Designer
 - The icons will appear square-shaped on the SOP Designer similarly as they are in the SOP-G2.5.
- Improvement to the SendMeter
 - Scanner Counter support on most Black and White MFPs as well as color MFPs.

Version 1.42 (November 2018)

- Improvement to the SOP Designer
 - Communication between the SOP Designer and MFP has been available even when Port 80 is closed on the MFP side.
 - 7" panel models support
 - Most custom application icons will disappear on unauthenticated user's Home screens as well as their original application icons when User Authentication Management is On.
- Improvement to the SendMeter
 - Accuracy of Toner Warning email function has been improved.

Version 1.41 (April 2018)

- Improvements to the SendMeter
 - Toner Warning email support
 - Scanner Counter support
- Improvement to the SOP Designer and the SOP APPS
 - Simplified Chinese support

Version 1.40 (November 2017)

- Improvements to the SOP Designer
 - Remote configuration of the machine's email settings (SMTP and Auto Email Notification) is supported to take advantage of the machine's Auto Email Notification feature (Call Service, Out of Toner, and Toner Almost Empty).
 - An application icon with the desired name and image can be added.
 - A zip file of an SOP application can be installed.

Version 1.33 (June 2017)

- Improvements to the SOP Designer
 - Ciphertext is supported for the communication between the SOP Designer and MFP.
 - An IP address list can be used when entering the machine's IP address.
 - Silent Mode (to hide error dialog of "Continue? Yes/No") support
- Improvement to the Contact Information
 - URL link support

Version 1.32 (February 2017)

- Improvements to the SOP Designer
 - Switching language capability regardless of the Windows OS language.
 - Up to 100 IP addresses can be specified at a time when uploading configuration data to MFP.
- Improvement to the SendMeter
 - "SMTP over SSL/TLS" support
- Bug fixes on the SendMeter
 - Too many counter items are displayed on SOP-G2 models if "Counter Mode" is set to "All".

- An email is sent unexpectedly every time the machine is powered on if automatic transmission is on.

Version 1.31 (November 2016)

- Improvement to the SOP Designer and the SOP APPS
 - French, German, Italian, Spanish, and Dutch language support
- Improvements to the Bulletin Widget
 - Display Images with hyperlinks
 - No line break in the middle of words
 - Hide the border line of the widget

Version 1.30 (May 2016)

First release

A. HISTORY OF THE SOFTWARE

=====

Python was created in the early 1990s by Guido van Rossum at Stichting Mathematisch Centrum (CWI, see <http://www.cwi.nl>) in the Netherlands as a successor of a language called ABC. Guido remains Python's principal author, although it includes many contributions from others.

In 1995, Guido continued his work on Python at the Corporation for National Research Initiatives (CNRI, see <http://www.cnri.reston.va.us>) in Reston, Virginia where he released several versions of the software.

In May 2000, Guido and the Python core development team moved to BeOpen.com to form the BeOpen PythonLabs team. In October of the same year, the PythonLabs team moved to Digital Creations (now Zope Corporation, see <http://www.zope.com>). In 2001, the Python Software Foundation (PSF, see <http://www.python.org/psf/>) was formed, a non-profit organization created specifically to own Python-related Intellectual Property. Zope Corporation is a sponsoring member of the PSF.

All Python releases are Open Source (see <http://www.opensource.org> for the Open Source Definition). Historically, most, but not all, Python releases have also been GPL-compatible; the table below summarizes the various releases.

Release	Derived From	Year	Owner	GPL-compatible? (1)
0.9.0 thru 1.2		1991-1995	CWI	yes
1.3 thru 1.5.2	1.2	1995-1999	CNRI	yes
1.6	1.5.2	2000	CNRI	no
2.0	1.6	2000	BeOpen.com	no
1.6.1	1.6	2001	CNRI	yes (2)
2.1	2.0+1.6.1	2001	PSF	no
2.0.1	2.0+1.6.1	2001	PSF	yes
2.1.1	2.1+2.0.1	2001	PSF	yes
2.1.2	2.1.1	2002	PSF	yes
2.1.3	2.1.2	2002	PSF	yes
2.2 and above	2.1.1	2001-now	PSF	yes

Footnotes:

- (1) GPL-compatible doesn't mean that we're distributing Python under the GPL. All Python licenses, unlike the GPL, let you distribute a modified version without making your changes open source. The GPL-compatible licenses make it possible to combine Python with other software that is released under the GPL; the others don't.
- (2) According to Richard Stallman, 1.6.1 is not GPL-compatible, because its license has a choice of law clause. According to CNRI, however, Stallman's lawyer has told CNRI's lawyer that 1.6.1 is "not incompatible" with the GPL.

Thanks to the many outside volunteers who have worked under Guido's direction to make these releases possible.

B. TERMS AND CONDITIONS FOR ACCESSING OR OTHERWISE USING PYTHON

PYTHON SOFTWARE FOUNDATION LICENSE VERSION 2

1. This LICENSE AGREEMENT is between the Python Software Foundation ("PSF"), and the Individual or Organization ("Licensee") accessing and otherwise using this software ("Python") in source or binary form and its associated documentation.
2. Subject to the terms and conditions of this License Agreement, PSF hereby grants Licensee a nonexclusive, royalty-free, world-wide license to reproduce, analyze, test, perform and/or display publicly, prepare derivative works, distribute, and otherwise use Python alone or in any derivative version, provided, however, that PSF's License Agreement and PSF's notice of copyright, i.e., "Copyright (c) 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013 Python Software Foundation; All Rights Reserved" are retained in Python alone or in any derivative version prepared by Licensee.

3. In the event Licensee prepares a derivative work that is based on or incorporates Python or any part thereof, and wants to make the derivative work available to others as provided herein, then Licensee hereby agrees to include in any such work a brief summary of the changes made to Python.

4. PSF is making Python available to Licensee on an "AS IS" basis. PSF MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED. BY WAY OF EXAMPLE, BUT NOT LIMITATION, PSF MAKES NO AND DISCLAIMS ANY REPRESENTATION OR WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR THAT THE USE OF PYTHON WILL NOT INFRINGE ANY THIRD PARTY RIGHTS.

5. PSF SHALL NOT BE LIABLE TO LICENSEE OR ANY OTHER USERS OF PYTHON FOR ANY INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES OR LOSS AS A RESULT OF MODIFYING, DISTRIBUTING, OR OTHERWISE USING PYTHON, OR ANY DERIVATIVE THEREOF, EVEN IF ADVISED OF THE POSSIBILITY THEREOF.

6. This License Agreement will automatically terminate upon a material breach of its terms and conditions.

7. Nothing in this License Agreement shall be deemed to create any relationship of agency, partnership, or joint venture between PSF and Licensee. This License Agreement does not grant permission to use PSF trademarks or trade name in a trademark sense to endorse or promote products or services of Licensee, or any third party.

8. By copying, installing or otherwise using Python, Licensee agrees to be bound by the terms and conditions of this License Agreement.

BEOPEN.COM LICENSE AGREEMENT FOR PYTHON 2.0

BEOPEN PYTHON OPEN SOURCE LICENSE AGREEMENT VERSION 1

1. This LICENSE AGREEMENT is between BeOpen.com ("BeOpen"), having an office at 160 Saratoga Avenue, Santa Clara, CA 95051, and the Individual or Organization ("Licensee") accessing and otherwise using this software in source or binary form and its associated documentation ("the Software").

2. Subject to the terms and conditions of this BeOpen Python License Agreement, BeOpen hereby grants Licensee a non-exclusive, royalty-free, world-wide license to reproduce, analyze, test, perform and/or display publicly, prepare derivative works, distribute, and otherwise use the Software alone or in any derivative version, provided, however, that the BeOpen Python License is retained in the Software, alone or in any derivative version prepared by Licensee.

3. BeOpen is making the Software available to Licensee on an "AS IS" basis. BEOPEN MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED. BY WAY OF EXAMPLE, BUT NOT LIMITATION, BEOPEN MAKES NO AND DISCLAIMS ANY REPRESENTATION OR WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR THAT THE USE OF THE SOFTWARE WILL NOT

INFRINGE ANY THIRD PARTY RIGHTS.

4. BEOPEN SHALL NOT BE LIABLE TO LICENSEE OR ANY OTHER USERS OF THE SOFTWARE FOR ANY INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES OR LOSS AS A RESULT OF USING, MODIFYING OR DISTRIBUTING THE SOFTWARE, OR ANY DERIVATIVE THEREOF, EVEN IF ADVISED OF THE POSSIBILITY THEREOF.

5. This License Agreement will automatically terminate upon a material breach of its terms and conditions.

6. This License Agreement shall be governed by and interpreted in all respects by the law of the State of California, excluding conflict of law provisions. Nothing in this License Agreement shall be deemed to create any relationship of agency, partnership, or joint venture between BeOpen and Licensee. This License Agreement does not grant permission to use BeOpen trademarks or trade names in a trademark sense to endorse or promote products or services of Licensee, or any third party. As an exception, the "BeOpen Python" logos available at <http://www.pythonlabs.com/logos.html> may be used according to the permissions granted on that web page.

7. By copying, installing or otherwise using the software, Licensee agrees to be bound by the terms and conditions of this License Agreement.

CNRI LICENSE AGREEMENT FOR PYTHON 1.6.1

1. This LICENSE AGREEMENT is between the Corporation for National Research Initiatives, having an office at 1895 Preston White Drive, Reston, VA 20191 ("CNRI"), and the Individual or Organization ("Licensee") accessing and otherwise using Python 1.6.1 software in source or binary form and its associated documentation.

2. Subject to the terms and conditions of this License Agreement, CNRI hereby grants Licensee a nonexclusive, royalty-free, world-wide license to reproduce, analyze, test, perform and/or display publicly, prepare derivative works, distribute, and otherwise use Python 1.6.1 alone or in any derivative version, provided, however, that CNRI's License Agreement and CNRI's notice of copyright, i.e., "Copyright (c) 1995-2001 Corporation for National Research Initiatives; All Rights Reserved" are retained in Python 1.6.1 alone or in any derivative version prepared by Licensee. Alternately, in lieu of CNRI's License Agreement, Licensee may substitute the following text (omitting the quotes): "Python 1.6.1 is made available subject to the terms and conditions in CNRI's License Agreement. This Agreement together with Python 1.6.1 may be located on the Internet using the following unique, persistent identifier (known as a handle): 1895.22/1013. This Agreement may also be obtained from a proxy server on the Internet using the following URL: <http://hdl.handle.net/1895.22/1013>".

3. In the event Licensee prepares a derivative work that is based on or incorporates Python 1.6.1 or any part thereof, and wants to make the derivative work available to others as provided herein, then Licensee hereby agrees to include in any such work a brief summary of the changes made to Python 1.6.1.

4. CNRI is making Python 1.6.1 available to Licensee on an "AS IS" basis. CNRI MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED. BY WAY OF EXAMPLE, BUT NOT LIMITATION, CNRI MAKES NO AND DISCLAIMS ANY REPRESENTATION OR WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR THAT THE USE OF PYTHON 1.6.1 WILL NOT INFRINGE ANY THIRD PARTY RIGHTS.

5. CNRI SHALL NOT BE LIABLE TO LICENSEE OR ANY OTHER USERS OF PYTHON 1.6.1 FOR ANY INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES OR LOSS AS A RESULT OF MODIFYING, DISTRIBUTING, OR OTHERWISE USING PYTHON 1.6.1, OR ANY DERIVATIVE THEREOF, EVEN IF ADVISED OF THE POSSIBILITY THEREOF.

6. This License Agreement will automatically terminate upon a material breach of its terms and conditions.

7. This License Agreement shall be governed by the federal intellectual property law of the United States, including without limitation the federal copyright law, and, to the extent such U.S. federal law does not apply, by the law of the Commonwealth of Virginia, excluding Virginia's conflict of law provisions. Notwithstanding the foregoing, with regard to derivative works based on Python 1.6.1 that incorporate non-separable material that was previously distributed under the GNU General Public License (GPL), the law of the Commonwealth of Virginia shall govern this License Agreement only as to issues arising under or with respect to Paragraphs 4, 5, and 7 of this License Agreement. Nothing in this License Agreement shall be deemed to create any relationship of agency, partnership, or joint venture between CNRI and Licensee. This License Agreement does not grant permission to use CNRI trademarks or trade name in a trademark sense to endorse or promote products or services of Licensee, or any third party.

8. By clicking on the "ACCEPT" button where indicated, or by copying, installing or otherwise using Python 1.6.1, Licensee agrees to be bound by the terms and conditions of this License Agreement.

ACCEPT

CWI LICENSE AGREEMENT FOR PYTHON 0.9.0 THROUGH 1.2

Copyright (c) 1991 - 1995, Stichting Mathematisch Centrum Amsterdam, The Netherlands. All rights reserved.

Permission to use, copy, modify, and distribute this software and its documentation for any purpose and without fee is hereby granted, provided that the above copyright notice appear in all copies and that both that copyright notice and this permission notice appear in supporting documentation, and that the name of Stichting Mathematisch Centrum or CWI not be used in advertising or publicity pertaining to distribution of the software without specific, written prior permission.

STICHTING MATHEMATISCH CENTRUM DISCLAIMS ALL WARRANTIES WITH REGARD TO THIS SOFTWARE, INCLUDING ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND

FITNESS, IN NO EVENT SHALL STICHTING MATHEMATISCH CENTRUM BE LIABLE FOR ANY SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES OR ANY DAMAGES WHATSOEVER RESULTING FROM LOSS OF USE, DATA OR PROFITS, WHETHER IN AN ACTION OF CONTRACT, NEGLIGENCE OR OTHER TORTIOUS ACTION, ARISING OUT OF OR IN CONNECTION WITH THE USE OR PERFORMANCE OF THIS SOFTWARE.

Additional Conditions for this Windows binary build

This program is linked with and uses Microsoft Distributable Code, copyrighted by Microsoft Corporation. The Microsoft Distributable Code includes the following files:

msvcr90.dll
msvcp90.dll
msvcm90.dll

If you further distribute programs that include the Microsoft Distributable Code, you must comply with the restrictions on distribution specified by Microsoft. In particular, you must require distributors and external end users to agree to terms that protect the Microsoft Distributable Code at least as much as Microsoft's own requirements for the Distributable Code. See Microsoft's documentation (included in its developer tools and on its website at microsoft.com) for specific details.

Redistribution of the Windows binary build of the Python interpreter complies with this agreement, provided that you do not:

- alter any copyright, trademark or patent notice in Microsoft's Distributable Code;
- use Microsoft's trademarks in your programs' names or in a way that suggests your programs come from or are endorsed by Microsoft;
- distribute Microsoft's Distributable Code to run on a platform other than Microsoft operating systems, run-time technologies or application platforms; or
- include Microsoft Distributable Code in malicious, deceptive or unlawful programs.

These restrictions apply only to the Microsoft Distributable Code as defined above, not to Python itself or any programs running on the Python interpreter. The redistribution of the Python interpreter and libraries is governed by the Python Software License included with this file, or by other licenses as marked.

This copy of Python includes a copy of bzip2, which is licensed under the following terms:

This program, "bzip2", the associated library "libbzip2", and all documentation, are copyright (C) 1996-2010 Julian R Seward. All

GOVERNMENT USE: If you are acquiring this software on behalf of the U.S. government, the Government shall have only "Restricted Rights" in the software and related documentation as defined in the Federal Acquisition Regulations (FARs) in Clause 52.227.19 (c) (2). If you are acquiring the software on behalf of the Department of Defense, the software shall be classified as "Commercial Computer Software" and the Government shall have only "Restricted Rights" as defined in Clause 252.227-7013 (c) (1) of DFARs. Notwithstanding the foregoing, the authors grant the U.S. Government and others acting in its behalf permission to use and distribute the software in accordance with the terms specified in this license.

This copy of Python includes a copy of Tix, which is licensed under the following terms:

Copyright (c) 1993-1999 Ioi Kim Lam.
Copyright (c) 2000-2001 Tix Project Group.
Copyright (c) 2004 ActiveState

This software is copyrighted by the above entities and other parties. The following terms apply to all files associated with the software unless explicitly disclaimed in individual files.

The authors hereby grant permission to use, copy, modify, distribute, and license this software and its documentation for any purpose, provided that existing copyright notices are retained in all copies and that this

notice is included verbatim in any distributions. No written agreement, license, or royalty fee is required for any of the authorized uses. Modifications to this software may be copyrighted by their authors and need not follow the licensing terms described here, provided that the new terms are clearly indicated on the first page of each file where they apply.

IN NO EVENT SHALL THE AUTHORS OR DISTRIBUTORS BE LIABLE TO ANY PARTY FOR DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OF THIS SOFTWARE, ITS DOCUMENTATION, OR ANY DERIVATIVES THEREOF, EVEN IF THE AUTHORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

THE AUTHORS AND DISTRIBUTORS SPECIFICALLY DISCLAIM ANY WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT. THIS SOFTWARE IS PROVIDED ON AN "AS IS" BASIS, AND THE AUTHORS AND DISTRIBUTORS HAVE NO OBLIGATION TO PROVIDE MAINTENANCE, SUPPORT, UPDATES, ENHANCEMENTS, OR MODIFICATIONS.

GOVERNMENT USE: If you are acquiring this software on behalf of the U.S. government, the Government shall have only "Restricted Rights" in the software and related documentation as defined in the Federal Acquisition Regulations (FARs) in Clause 52.227.19 (c) (2). If you are acquiring the software on behalf of the Department of Defense, the software shall be classified as "Commercial Computer Software" and the Government shall have only "Restricted Rights" as defined in Clause 252.227-7013 (c) (1) of DFARs. Notwithstanding the foregoing, the authors grant the U.S. Government and others acting in its behalf permission to use and distribute the software in accordance with the terms specified in this license.

Parts of this software are based on the Tcl/Tk software copyrighted by the Regents of the University of California, Sun Microsystems, Inc., and other parties. The original license terms of the Tcl/Tk software distribution is included in the file docs/license.tcltk.

Parts of this software are based on the HTML Library software copyrighted by Sun Microsystems, Inc. The original license terms of the HTML Library software distribution is included in the file docs/license.html_lib.

WXWINDOWS LIBRARY LICENCE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

This library is free software; you can redistribute it and/or modify it under the terms of the GNU Library General Public Licence as published by the Free Software Foundation; either version 2 of the Licence, or (at your option) any later version.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Library General Public Licence for more details.

You should have received a copy of the GNU Library General Public Licence along with this software, usually in a file named COPYING.LIB. If not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA.

EXCEPTION NOTICE

1. As a special exception, the copyright holders of this library give permission for additional uses of the text contained in this release of the library as licenced under the wxWindows Library Licence, applying either version 3.1 of the Licence, or (at your option) any later version of the Licence as published by the copyright holders of version 3.1 of the Licence document.
2. The exception is that you may use, copy, link, modify and distribute under your own terms, binary object code versions of works based on the Library.
3. If you copy code from files distributed under the terms of the GNU General Public Licence or the GNU Library General Public Licence into a copy of this library, as this licence permits, the exception does not apply to the code that you add in this way. To avoid misleading anyone as to the status of such modified files, you must delete this exception notice from such code and/or adjust the licensing conditions notice accordingly.
4. If you write modifications of your own for this library, it is your choice whether to permit this exception to apply to your modifications. If you do not wish that, you must delete the exception notice from such code and/or adjust the licensing conditions notice accordingly.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction,
and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by
the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all
other entities that control, are controlled by, or are under common
control with that entity. For the purposes of this definition,
"control" means (i) the power, direct or indirect, to cause the
direction or management of such entity, whether by contract or
otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity
exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications,
including but not limited to software source code, documentation
source, and configuration files.

"Object" form shall mean any form resulting from mechanical
transformation or translation of a Source form, including but
not limited to compiled object code, generated documentation,
and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or
Object form, made available under the License, as indicated by a
copyright notice that is included in or attached to the work
(an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

- 5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
- 6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
- 7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

About Open Source Software in SendMeter, Contact Information and Bulletin

Open Source Software (OSS) List

This product includes the software with the following OSS licenses:

No.	OSS name	Version	License	Notes
1	javamail-android	1.4.1	CDDL-1.0	SendMeter includes this OSS. Availability of JavaMail-Android source code: http://www.support-download.com/bb/html/dr_ut_e/oss/index.htm (Click "MP C4504/C5504/..." in the left pane, click the downwards arrow icon of "Scan to Me" to download javamail-android.zip.)
2	Gson	2.2.2	Apache License 2.0	SendMeter, Contact Information, and Bulletin include this OSS.
3	Commons IO	2.4	Apache License 2.0	SendMeter, Contact Information, and Bulletin include this OSS.
4	Android Support Library	Rev.19	Apache License 2.0	SendMeter, Contact Information, and Bulletin include this OSS.
5	JSONIC	1.3.0	Apache License 2.0	SendMeter, Contact Information, and Bulletin include this OSS.

COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL) Version 1.0 1.

Definitions.

- 1.1. Contributor means each individual or entity that creates or contributes to the creation of Modifications.
- 1.2. Contributor Version means the combination of the Original Software, prior Modifications used by a Contributor (if any), and the Modifications made by that particular Contributor.
- 1.3. Covered Software means (a) the Original Software, or (b) Modifications, or (c) the combination of files containing Original Software with files containing Modifications, in each case including portions thereof.
- 1.4. Executable means the Covered Software in any form other than Source Code.
- 1.5. Initial Developer means the individual or entity that first makes Original Software available under this License.

1.6. Larger Work means a work which combines Covered Software or portions thereof with code not governed by the terms of this License.

1.7. License means this document.

1.8. Licensable means having the right to grant, to the maximum extent possible, whether at the time of the initial grant or subsequently acquired, any and all of the rights conveyed herein.

1.9. Modifications means the Source Code and Executable form of any of the following: A. Any file that results from an addition to, deletion from or modification of the contents of a file containing Original Software or previous Modifications; B. Any new file that contains any part of the Original Software or previous Modification; or C. Any new file that is contributed or otherwise made available under the terms of this License.

1.10. Original Software means the Source Code and Executable form of computer software code that is originally released under this License.

1.11. Patent Claims means any patent claim(s), now owned or hereafter acquired, including without limitation, method, process, and apparatus claims, in any patent Licensable by grantor.

1.12. Source Code means (a) the common form of computer software code in which modifications are made and (b) associated documentation included in or with such code.

1.13. You (or Your) means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, You includes any entity which controls, is controlled by, or is under common control with You. For purposes of this definition, control means (a) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (b) ownership of more than fifty percent (50%) of the outstanding shares or beneficial ownership of such entity.

2. License Grants.

2.1. The Initial Developer Grant. Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, the Initial Developer hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by Initial Developer, to use, reproduce, modify, display, perform, sublicense and distribute the Original Software (or portions thereof), with or without Modifications, and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using or selling of Original Software, to make, have made, use, practice, sell, and offer for sale, and/or otherwise dispose of the Original Software (or portions thereof);

(c) The licenses granted in Sections 2.1(a) and (b) are effective on the date Initial Developer first distributes or otherwise makes the Original Software available to a third party under the terms of this License;

(d) Notwithstanding Section 2.1(b) above, no patent license is granted: (1) for code that You delete from the Original Software, or (2) for infringements caused by: (i) the modification of the Original Software, or (ii) the combination of the Original Software with other software or devices.

2.2. Contributor Grant. Conditioned upon Your compliance with Section 3.1 below and subject to third party intellectual property claims, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by Contributor to use, reproduce, modify, display, perform, sublicense and distribute the Modifications created by such Contributor (or portions thereof), either on an unmodified basis, with other Modifications, as Covered Software and/or as

part of a Larger Work; and

(b) under Patent Claims infringed by the making, using, or selling of Modifications made by that Contributor either alone and/or in combination with its Contributor Version (or portions of such combination), to make, use, sell, offer for sale, have made, and/or otherwise dispose of: (1) Modifications made by that Contributor (or portions thereof); and (2) the combination of Modifications made by that Contributor with its Contributor Version (or portions of such combination).

(c) The licenses granted in Sections 2.2(a) and 2.2(b) are effective on the date Contributor first distributes or otherwise makes the Modifications available to a third party.

(d) Notwithstanding Section 2.2(b) above, no patent license is granted: (1) for any code that Contributor has deleted from the Contributor Version; (2) for infringements caused by: (i) third party modifications of Contributor Version, or (ii) the combination of Modifications made by that Contributor with other software (except as part of the Contributor Version) or other devices; or (3) under Patent Claims infringed by Covered Software in the absence of Modifications made by that Contributor.

3. Distribution Obligations.

3.1. Availability of Source Code. Any Covered Software that You distribute or otherwise make available in Executable form must also be made available in Source Code form and that Source Code form must be distributed only under the terms of this License. You must include a copy of this License with every copy of the Source Code form of the Covered Software You distribute or otherwise make available. You must inform recipients of any such Covered Software in Executable form as to how they can obtain such Covered Software in Source Code form in a reasonable manner on or through a medium customarily used for software exchange.

3.2. Modifications. The Modifications that You create or to which You contribute are governed by the terms of this License. You represent that You believe Your Modifications are Your original creation(s) and/or You have sufficient rights to grant the rights conveyed by this License.

3.3. Required Notices. You must include a notice in each of Your Modifications that identifies You as the Contributor of the Modification. You may not remove or alter any copyright, patent or trademark notices contained within the Covered Software, or any notices of licensing or any descriptive text giving attribution to any Contributor or the Initial Developer.

3.4. Application of Additional Terms. You may not offer or impose any terms on any Covered Software in Source Code form that alters or restricts the applicable version of this License or the recipients rights hereunder. You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, you may do so only on Your own behalf, and not on behalf of the Initial Developer or any Contributor. You must make it absolutely clear that any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of warranty, support, indemnity or liability terms You offer.

3.5. Distribution of Executable Versions. You may distribute the Executable form of the Covered Software under the terms of this License or under the terms of a license of Your choice, which may contain terms different from this License, provided that You are in compliance with the terms of this License and that the license for the Executable form does not attempt to limit or alter the recipients rights in the Source Code form from the rights set forth in this License. If You distribute the Covered Software in Executable form under a different license, You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by the Initial Developer or Contributor. You hereby agree to indemnify the Initial Developer and every Contributor for any liability incurred by the Initial Developer or such Contributor as a result of any such terms You offer.

3.6. Larger Works. You may create a Larger Work by combining Covered Software with other code not governed by the terms of this License and distribute the Larger Work as a single product. In such a case, You

must make sure the requirements of this License are fulfilled for the Covered Software.

4. Versions of the License.

4.1. New Versions. Sun Microsystems, Inc. is the initial license steward and may publish revised and/or new versions of this License from time to time. Each version will be given a distinguishing version number. Except as provided in Section 4.3, no one other than the license steward has the right to modify this License.

4.2. Effect of New Versions. You may always continue to use, distribute or otherwise make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. If the Initial Developer includes a notice in the Original Software prohibiting it from being distributed or otherwise made available under any subsequent version of the License, You must distribute and make the Covered Software available under the terms of the version of the License under which You originally received the Covered Software. Otherwise, You may also choose to use, distribute or otherwise make the Covered Software available under the terms of any subsequent version of the License published by the license steward.

4.3. Modified Versions. When You are an Initial Developer and You want to create a new license for Your Original Software, You may create and use a modified version of this License if You: (a) rename the license and remove any references to the name of the license steward (except to note that the license differs from this License); and (b) otherwise make it clear that the license contains terms which differ from this License.

5. DISCLAIMER OF WARRANTY. COVERED SOFTWARE IS PROVIDED UNDER THIS LICENSE ON AN AS IS BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE COVERED SOFTWARE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED SOFTWARE IS WITH YOU. SHOULD ANY COVERED SOFTWARE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF ANY COVERED SOFTWARE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER.

6. TERMINATION.

6.1. This License and the rights granted hereunder will terminate automatically if You fail to comply with terms herein and fail to cure such breach within 30 days of becoming aware of the breach. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive.

6.2. If You assert a patent infringement claim (excluding declaratory judgment actions) against Initial Developer or a Contributor (the Initial Developer or Contributor against whom You assert such claim is referred to as Participant) alleging that the Participant Software (meaning the Contributor Version where the Participant is a Contributor or the Original Software where the Participant is the Initial Developer) directly or indirectly infringes any patent, then any and all rights granted directly or indirectly to You by such Participant, the Initial Developer (if the Initial Developer is not the Participant) and all Contributors under Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from Participant terminate prospectively and automatically at the expiration of such 60 day notice period, unless if within such 60 day period You withdraw Your claim with respect to the Participant Software against such Participant either unilaterally or pursuant to a written agreement with Participant.

6.3. In the event of termination under Sections 6.1 or 6.2 above, all end user licenses that have been validly granted by You or any distributor hereunder prior to termination (excluding licenses granted to You by any distributor) shall survive termination.

7. LIMITATION OF LIABILITY. UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED SOFTWARE, OR

ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOST PROFITS, LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTYS NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU.

8. U.S. GOVERNMENT END USERS. The Covered Software is a commercial item, as that term is defined in 48 C.F.R. 2.101 (Oct. 1995), consisting of commercial computer software (as that term is defined at 48 C.F.R. 252.227-7014(a)(1)) and commercial computer software documentation as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Software with only those rights set forth herein. This U.S. Government Rights clause is in lieu of, and supersedes, any other FAR, DFAR, or other clause or provision that addresses Government rights in computer software under this License.

9. MISCELLANEOUS. This License represents the complete agreement concerning subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. This License shall be governed by the law of the jurisdiction specified in a notice contained within the Original Software (except to the extent applicable law, if any, provides otherwise), excluding such jurisdictions conflict-of-law provisions. Any litigation relating to this License shall be subject to the jurisdiction of the courts located in the jurisdiction and venue specified in a notice contained within the Original Software, with the losing party responsible for costs, including, without limitation, court costs and reasonable attorneys fees and expenses. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not apply to this License. You agree that You alone are responsible for compliance with the United States export administration regulations (and the export control laws and regulation of any other countries) when You use, distribute or otherwise make available any Covered Software.

10. RESPONSIBILITY FOR CLAIMS. As between Initial Developer and the Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License and You agree to work with Initial Developer and Contributors to distribute such responsibility on an equitable basis. Nothing herein is intended or shall be deemed to constitute any admission of liability.

NOTICE PURSUANT TO SECTION 9 OF THE COMMON DEVELOPMENT AND DISTRIBUTION LICENSE (CDDL) The code released under the CDDL shall be governed by the laws of the State of California (excluding conflict-of-law provisions). Any litigation relating to this License shall be subject to the jurisdiction of the Federal Courts of the Northern District of California and the state courts of the State of California, with venue lying in Santa Clara County, California.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to

communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
 - (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
 - (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
 - (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or

documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. **Submission of Contributions.** Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
6. **Trademarks.** This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. **Disclaimer of Warranty.** Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. **Limitation of Liability.** In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. **Accepting Warranty or Additional Liability.** While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only

on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.
