

the *Journal of Applied Behavior Analysis* (1974), and the *Journal of Experimental Psychology: Applied* (1995).

There are a number of reasons why the *Journal of Applied Behavior Analysis* is the most widely cited journal in the field of behavior analysis.

First, the journal has a long history of publishing high-quality research. The journal was founded in 1968 and has since published a wide range of research, including experimental, clinical, and applied research.

Second, the journal has a high impact factor. The impact factor is a measure of the journal's influence, and the *Journal of Applied Behavior Analysis* has consistently ranked high in this regard.

Third, the journal has a wide readership. The journal is read by a large number of researchers and practitioners in the field of behavior analysis, and this has contributed to its high citation rate.

Finally, the journal has a strong reputation for publishing research that is both rigorous and practical. This has made the journal a valuable resource for researchers and practitioners alike.

In conclusion, the *Journal of Applied Behavior Analysis* is the most widely cited journal in the field of behavior analysis for a number of reasons, including its long history of publishing high-quality research, its high impact factor, its wide readership, and its strong reputation for publishing research that is both rigorous and practical.
